

Auf www.chocolatey.org gehen und unter „Try out“ das commando zum installieren besorgen

1. First, ensure that you are using an *administrative shell* - you can also install as a non-admin, check out Non-Administrative Installation.
2. Install with powershell.exe

NOTE

Please inspect <https://community.chocolatey.org/install.ps1> prior to running any of these scripts to ensure safety. We already know it's safe, but you should verify the security and contents of *any* script from the internet you are not familiar with. All of these scripts download a remote PowerShell script and execute it on your machine. We take security very seriously. Learn more about our security protocols.

With PowerShell, you must ensure Get-ExecutionPolicy is not Restricted. We suggest using **Bypass** to bypass the policy to get things installed or **AllSigned** for quite a bit more security.

- Run **Get-ExecutionPolicy**. If it returns **Restricted**, then run **Set-ExecutionPolicy AllSigned** or **Set-ExecutionPolicy Bypass -Scope Process**.

Now run the following command:

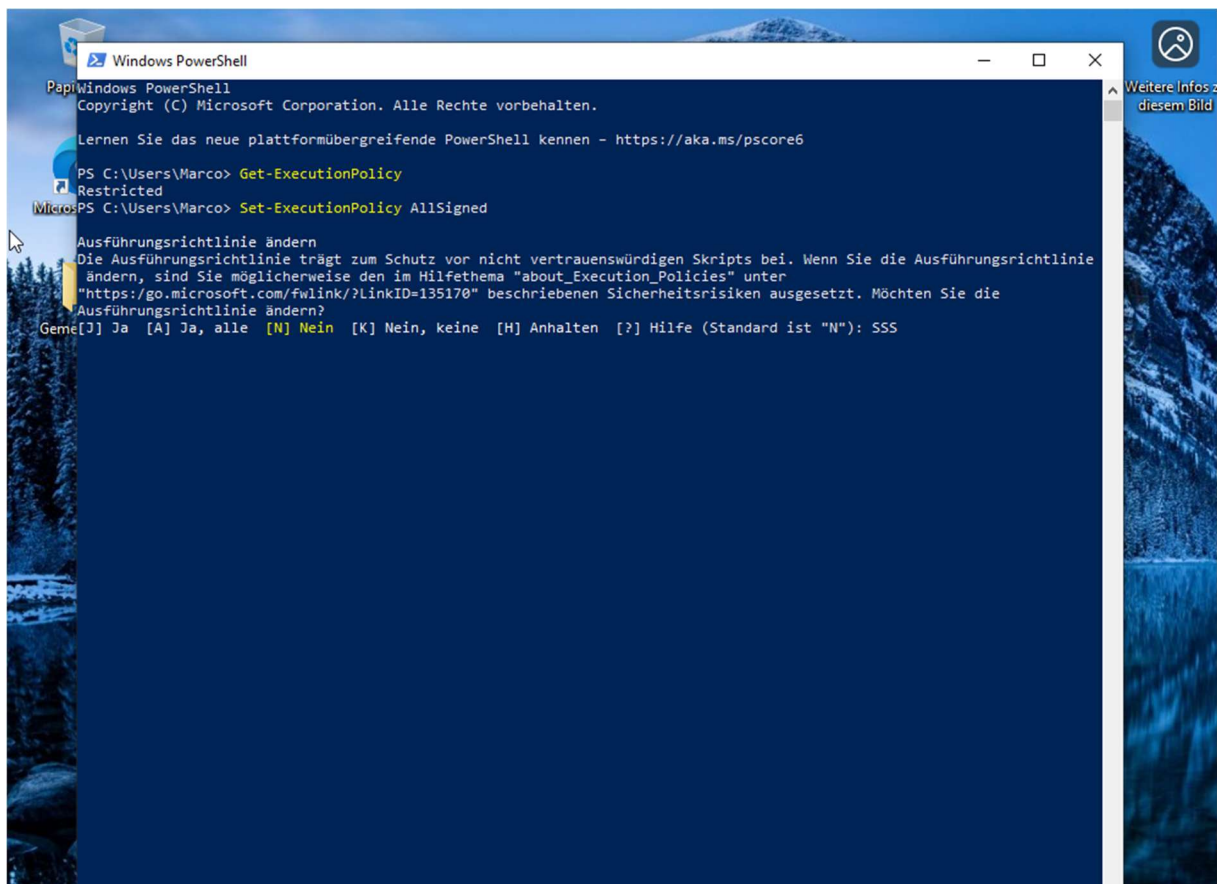

```
> Set-ExecutionPolicy Bypass -Scope Process -Force; [System.Net.ServicePointManager]::SecurityProtocol = [System.Net.ServicePointManager]::SecurityProtocol -bor 3072; ie
```

3. Paste the copied text into your shell and press Enter.
4. Wait a few seconds for the command to complete.
5. If you don't see any errors, you are ready to use Chocolatey! Type **choco** or **choco -?** now, or see Getting Started for usage instructions.

Chocolatey Licensed Install:

Are you also installing a commercial edition of Chocolatey?

Die Policy vom ersten schritt unterzeichnen.

Nachdem chocolatey installiert ist, kann man mit dem Befehl „choco“ das ganze nochmal nachprüfen und sich eine liste von commands anzeigen lassen

```
PS C:\Windows\system32> choco
Chocolatey v2.4.0
Please run 'choco -?' or 'choco <command> -?' for help menu.
PS C:\Windows\system32> choco -?
This is a listing of all of the different things you can pass to choco.

Options and Switches

-v, --version
    Version - Prints out the Chocolatey version.

Commands

* apikey - retrieves, saves or deletes an API key for a particular source
* cache - Manage the local HTTP caches used to store queries (v2.1.0+)
* config - Retrieve and configure config file settings
* export - exports list of currently installed packages
* feature - view and configure choco features
* features - view and configure choco features (alias for feature)
* find - searches remote packages (alias for search)
* help - displays top level help information for choco
* info - retrieves package information. Shorthand for choco search pkgname --exact --v
* install - installs packages using configured sources
* list - lists local packages
* new - creates template files for creating a new Chocolatey package
* outdated - retrieves information about packages that are outdated. Similar to upgrad
* pack - packages nuspec, scripts, and other Chocolatey package resources into a nupkg
* pin - suppress upgrades for a package
* push - pushes a compiled nupkg to a source
* rule - view or list implemented package rules (v2.3.0+)
* search - searches remote packages
```

```
PS C:\Windows\system32> Set-ExecutionPolicy AllSigned

Ausführungsrichtlinie ändern
Die Ausführungsrichtlinie trägt zum Schutz vor nicht vertrauenswürdigen Skripts bei. Wenn
    ändern, sind Sie möglicherweise den im Hilfethema "about_Execution_Policies" unter
    "https://go.microsoft.com/fwlink/?LinkID=135170" beschriebenen Sicherheitsrisiken ausgesetzt.
Ausführungsrichtlinie ändern?
[J] Ja [A] Ja, alle [N] Nein [K] Nein, keine [H] Anhalten [?] Hilfe (Standard ist "N")
PS C:\Windows\system32> Set-ExecutionPolicy Bypass -Scope Process -Force; [System.Net.ServicePointManager]::SecurityProtocol -bor 3072; iex ((New-Object System.Net.WebClient).Download
    'https://chocolatey.org/install.ps1'))
Forcing web requests to allow TLS v1.2 (Required for requests to Chocolatey.org)
Getting latest version of the Chocolatey package for download.
Not using proxy.
Getting Chocolatey from https://community.chocolatey.org/api/v2/package/chocolatey/2.4.0.
Downloading https://community.chocolatey.org/api/v2/package/chocolatey/2.4.0 to C:\Users\
    Marco\AppData\Local\Temp\chocolatey\chocoInstall\chocolatey.zip
Extracting C:\Users\Marco\AppData\Local\Temp\chocolatey\chocoInstall\chocolatey.zip to C:\
    ProgramData\chocolatey\
Installing Chocolatey on the local machine
Creating ChocolateyInstall as an environment variable (targeting 'Machine')
Setting ChocolateyInstall to 'C:\ProgramData\chocolatey'
WARNING: It's very likely you will need to close and reopen your shell
    before you can use choco.
Restricting write permissions to Administrators
We are setting up the Chocolatey package repository.
The packages themselves go to 'C:\ProgramData\chocolatey\lib'
    (i.e. C:\ProgramData\chocolatey\lib\yourPackageName).
A shim file for the command line goes to 'C:\ProgramData\chocolatey\bin'
    and points to an executable in 'C:\ProgramData\chocolatey\lib\yourPackageName'.

Creating Chocolatey CLI folders if they do not already exist.

chocolatey.nupkg file not installed in lib.
Attempting to locate it from bootstrapper.
PATH environment variable does not have C:\ProgramData\chocolatey\bin in it. Adding...
WARNING: Not setting tab completion: Profile file does not exist at
    'C:\Users\Marco\Documents\WindowsPowerShell\Microsoft.PowerShell_profile.ps1'.
Chocolatey CLI (choco.exe) is now ready.
You can call choco from anywhere, command line or powershell by typing choco.
Run choco /? for a list of functions.
You may need to shut down and restart powershell and/or consoles
    first prior to using choco.
```

Auf der Seite kann man nun ein Packet aus gewünschten Programmen zusammenstellen

Generate Script

Adobe Acrobat Reader DC
2024.4.20220

Google Chrome
131.0.6778.70

Mozilla Firefox
132.0.2

Flash Player Plugin
32.0.0.465

Im letzten schritt bekommen wir nun den code zum installieren unseres Packets. Diesen müssen wir nun nurnoch eingeben und schon werden die Programme installiert

STEP 1
Package Review

STEP 2
Integration Method

STEP 3
Install Script / Config

PreviousNext

Step 3: Copy Your Script or Download Config

Option 1: Copy Script

```
1 choco install adobereader --version 2024.4.20220 -y
2 choco install googlechrome --version 131.0.6778.70 -y
3 choco install firefox --version 132.0.2 -y
4 choco install flashplayerplugin --version 32.0.0.465 -y
```
